Skyfall's Bond On Set is Great!By MLB-RiggThe book is wonderful for any Skyfall fan who can't get enough of the movie. I did love the book but in view of the long wait for Bond 24 I now wish the book were twice as long. Of course if it was I would still say the same thing. I think I'll just end up picking up other Bond On Set books. If you loved Skyfall and need more pair this book with the movie commentaries.1 of 1 people found the following review helpful. Bond On SetBy JIM USAGreat photographs and script notations. The only problem is that the more photos you see, the more you want to see. He must have taken 100 photos for every 1 that was published, and I would like to see them all. What is printed is excellent without getting too overloaded with details. Good stuff at a bargain price.
