**Tina Fey : Bossypants** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Bossypants:

1 of 1 people found the following review helpful. Hysterically funny By Jamie Tina Fey is everywoman. She has the same problems, conflicts, joys; only she writes better than the rest of us. F\*\*\*ing great. 0 of 0 people found the following review helpful. " This wonderful memoir has jokes By Camille "You're nobody until somebody calls you Bossy." This

wonderful memoir has jokes, anecdotes and unsolicited life advice from the hilarious Tina Fey. What I liked: The whole book! My short review is just buy/borrow it, because it's fantastic and funny and you should read it! When I posted a picture of this book on my Instagram, so many people told me how much they enjoyed the book, and many recommended that I listen to the audiobook, as Fey narrates. I've tried a few audiobooks over the years and I really can't focus on information that way. I may actually give it a try with *Bossypants* though, because Fey is so witty and I believe hearing her jokes come from her would enhance them, especially now that I'm familiar with the material. Fey gives readers a wonderful mix of comic insight into life and honest thoughts on a variety of topics such as life as woman, mother and comic, as well as fashion and beauty tips! Every page contained something that made me smile or chuckle and I can't remember the last time I laughed so many times while reading a book. (It was probably last December, when I read Mindy Kaling's book - I need to read more humor!) What I didn't like: Nothing! Wait, you know what? This book wasn't long enough! I reached the end all too soon and wanted more of Fey's tips and quips. Hopefully she puts out another book in the future. ~If you like humorous memoirs, this book is for you. If you don't like comedic books you probably have no soul you might still find some of her more insightful moments useful in your own life. 0 of 0 people found the following review helpful. Not funny, what? By blearyeye Not funny, what?! Did not even chuckle?! Someone's got a serious case of osteoporosis of the funny bone. I'm serious. This book is hilarious. I read it on the beach in two sittings and at least once per page I burst out laughing. Seeing published heretofore women-only humor was gratifying beyond words. Irreverent and smart, Fey gifted us with a light hearted look at some serious woman-centered content. Every chapter, especially the SNL to 30-Rock bits, offers enlightenment of one kind or another. It's a soft core look behind the scenes of the entertainment biz (big nod of agreement re: her contention that once funny women are judged "crazy" with age; and, I'm saddened but not surprised that a show would be judged based solely on the actors' sex appeal). The motherhood bits (breastfeeding, working mother's guilt) felt honest and deeply resonated with this mom of three. And there's so much more. I could go on like a fawning sycophant. Suffice it to say, thanks for a fabulous read, Tina Fey.

Before Liz Lemon, before "Weekend Update," before "Sarah Palin," Tina Fey was just a young girl with a dream: a recurring stress dream that she was being chased through a local airport by her middle-school gym teacher. She also had a dream that one day she would be a comedian on TV. She has seen both these dreams come true. At last, Tina Fey's story can be told. From her youthful days as a vicious nerd to her tour of duty on Saturday Night Live; from her passionately halfhearted pursuit of physical beauty to her life as a mother eating things off the floor; from her one-sided college romance to her nearly fatal honeymoon -- from the beginning of this paragraph to this final sentence. Tina Fey reveals all, and proves what we've all suspected: you're no one until someone calls you bossy. (Includes Special, Never-Before-Solicited Opinions on Breastfeeding, Princesses, Photoshop, the Electoral Process, and Italian Rum Cake!)

.com Best Books of the Month, April 2011: Tina Feys new book *Bossypants* is short, messy, and impossibly funny (an apt description of the comedian herself). From her humble roots growing up in Pennsylvania to her days doing amateur improv in Chicago to her early sketches on Saturday Night Live, Fey gives us a fascinating glimpse behind the curtain of modern comedy with equal doses of wit, candor, and self-deprecation. Some of the funniest chapters feature the differences between male and female comedy writers ("men urinate in cups"), her cruise ship honeymoon ("its very Poseidon Adventure"), and advice about breastfeeding ("I had an obligation to my child to pretend to try"). But the chaos of Feys life is best detailed when shes dividing her efforts equally between rehearsing her Sarah Palin impression, trying to get Oprah to appear on 30 Rock, and planning her daughters Peter Pan-themed birthday. *Bossypants* gets to the heart of why Tina Fey remains universally adored: she embodies the hectic, too-many-things-to-juggle lifestyle we all have, but instead of complaining about it, she can just laugh it off. --Kevin Nguyen Once in a generation a woman comes along who changes everything. Tina Fey is not that woman, but she met that woman once and acted weird around her. PRAISE FOR TINA FEY: "You'd be really pretty if you lost weight." College Boyfriend, 1990 "Tina Fey is an ugly, pear-shaped, overrated troll." The Internet "Mommy, where are my pretzels?" Tracy Morgan ADVANCE PRAISE FOR BOSSYPANTS: "I hope that's not really the cover. That's really going to hurt sales." Don Fey, Father of Tina Fey "Absolutely delicious!" A Guy Who Eats Books "Totally worth it." Trees "Do not print this glowing recommendation of Tina Fey's book until I've been dead a hundred years." Mark Twain "Hilarious and insightful. Laugh-out-loud funny -- oh no, a full moon. No! Arrgh! Get away from me! Save yourself!" A Guy Turning into a Werewolf About the Author Tina Fey lives in Denver with her ferret, Jacoby.
