CohenThis is the second book I have read this year about one of my favorite films, "Breakfast at Tiffanys," the other book being "Fifth Avenue, 5 A.M." They are both nice companion pieces to a film I consider to be a tribute to Hollywood film making. The other book has much more biographical data on Capote, Audrey Hepburn, the screenwriter George Axelrod, director Blake Edwards, etc. This book is larger in size and pictures many beautiful color photographs from the film, many off-camera shots, etc. There is also a great deal of information although, as stated, not as much as the other book. It is a beautiful book to look at or browse through. With the possible exception of Marilyn Monroe, Audrey Hepburn was probably the most charismatic actress I can think of in cinema history. The camera loved her and she was incapable of taking a bad shot. She and George Peppard are wonderful in this film (despite the fact that Capote did not want her for this role and director Edwards did not want Peppard.) The end scene of their kissing in the rain, with Holly's cat between them, is absolutely magical and a wonderful part of motion picture history. Another thing I love about this film is the fact that some of it was filmed on location in New York City. As someone who was ten years old when this film was made and who has lived in New York his entire life, I enjoy looking back at the Manhattan of 1961, as featured in this film. (This book has many wonderful photos shot on the streets of Manhattan as they were

making this film. In conclusion, I highly recommend this book (and the other as well.) If you love this film or are a big fan of the incomparable Audrey Hepburn, you will greatly enjoy it. 1 of 1 people found the following review helpful. WOW! Gorgeous book! By Shey Lunger The color... Perfect... simply perfect By Mae My friends and I gave this book as a gift to a friend who was diagnosed with cancer. He would take this book with him when he went to chemotherapy. It gave him joy and helped him cope. He said it was a perfect gift and reminded him of the beauty of life.

A celebration of a timeless classic, this companion volume, timed to coincide with the 50th anniversary of the release of the iconic film, is the perfect book for any fan of Audrey Hepburn or the cinema. Rich in detail and in illustration, this keepsake tribute volume is the perfect celebration of a beloved classic.
