Good story By Forest's Daughter I am judging the story solely on the content and not on finer details like grammar and editing. It is a good story that portrays a social that is deeply embedded in our society. It not only shows the feelings and emotion of the

ones that are bullied but also the consequences of it. It starts when the characters are younger and progresses on to show how they grow up as individuals in their later years. 0 of 0 people found the following review helpful. Well Done By Jim Marquis A powerful play. I really liked how the author showed how complicated this subject is...how even the "good guy" in this kind of situation often has to walk a fine line.

"BULLIED: The progression from a childhood drama to the chilling conclusion is subtle enough to be surprising but connected enough to seem, in retrospect, inevitable. Strips bullying bare." - Bill Oberst Jr.
