Barry Cryer : Butterfly Brain before purchasing it in order to gage whether or not it would be worth my time, and all praised Butterfly Brain:

0 of 0 people found the following review helpful. Not autobiographyBy Sticky samSomewhere near the start of the book, Barry writes, this is not an autobiography. However I had already bought the book to glean this bit of information. The book is still mainly about his life in no particular order. Without a doubt he has had an interesting life and met a lot of famous people. I still think the book is a good read if you know it is not an autobiography.

Barry Cryer has collaborated with some of the great names in comedy from the mid-1950s onwards. Baz recalls, reminisces, recounts and other words beginning with 'R', on a trip down Memory Lane, pausing only for tea and macaroons at the Stannah Stairlift Cafe. What memories - if only he can remember them!

Fascinating to read and difficult to put down. * THE PRESS *About the AuthorBarry Cryer's writing credits include material for Morecambe and Wise, Tommy Cooper, Les Dawson, Bruce Forsyth, Rory Bremner and Kenny Everett, to name but a few. As if this was not enough, he has also collaboratively penned series like HELLO CHEEKY! and appears regularly on I'M SORRY I HAVEN'T A CLUE, and JUST A MINUTE. Recently he has been delighting audiences with his 'Still Alive!' national tour. He was made an OBE for services to comedy in 2001.
