**Philip Riley : Cagliostro** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cagliostro:

1 of 1 people found the following review helpful. Cagliostro Lives! By Sandy Robertson Orson Welles starred as sorcerer Cagliostro in a classic film called Black Magic, also issued in some territories under the name... Cagliostro. This unearthed script of an unfilmed Boris Karloff project would've been a very different kettle of fish. Its part of a series of unrealised Universal horrors curated by Philip Riley, who has previously done sterling work on scripts that the company DID make. Its part sci-fi, part hocus pocus, all fun. My only criticism is that the biographical extras on the real Cagliostro are a bit thin. A minor quibble on an item that will be a must-have for fans of Karloff and classic

horror.
