**Kyle Smith : Call Nights** before purchasing it in order to gage whether or not it would be worth my time, and all praised Call Nights:

It's pretty freaky going in "green" and sometimes getting slammed with patients, and Kyle at least had "back up" to call. You hate to call them, but sometimes you feel overwhelmed and they help a lot! Weekend nights are often SO busy with necessary or not-so-necessary patients as

many will come just because they didn't renew their pain meds in time and "need" help, or the alcoholics need a "tune-up" and then there's the really serious ones brought in by the Medics who demand your strict attention just by their condition. Then, there are the Nurses . . . some rude and bossy but very efficient, others that shouldn't be there at all. The Doc's can be rude, and I've been around them. They are very smart, and some are (a) smart Alec. We'll leave it at that! 2 of 2 people found the following review helpful. More real than "Grey's Anatomy".....By Quilter55I have no idea why this is classified as Southern Medical Humor. The anecdotes in Smith's book could have happened in any part of the United States, to any physician in training. I have 2 medical professionals in my immediate family, and I laughed out loud, and READ out loud to them. Although Dr. Smith's writing rambled around a bit, I enjoyed it. This is good reading for anyone who wants to understand what doctors and all medical professionals are experiencing, as they struggle to take care of people in emergent and continuous situations, who often will not or cannot take care of themselves. 1 of 1 people found the following review helpful. The writing is clear and easy to understand. By CustomerThis book narrates a series of experiences as a resident physician. The writing is clear and easy to understand. I had assumed there would be more humor and depth than was the case in reading the book. The author adds a critique of what value the experience had but didn't really add insight in the critique. I would probably not buy another book from the author.

**MEDICAL HUMOR...**Hilarious and poignant second book where Doc Smith takes on the nurses, doctors, and mentors in his uniquely southern voice. This follow up to his popular ER Confessional shows us the powerful relationships and friendships that occur when you work in a high stress occupation. And don't worry there are plenty of patient stories to keep the reader entertained.

**About the Author**Dr. Kyle Smith (D.O., Ph.D., F.A.C.P.) is the Medical Director of Vascular Access Center Southwest Louisiana, Lafayette and a Staff Physician at the Vascular Access Centers of New Orleans, LA, North Shore, LA, and Houston, TX. He is a Consulting Physician at Our Lady of Lourdes Hospital and LTAC of Acadiana in Lafayette, LA. He was a partner with the Dallas Nephrology Associates before taking on his current duties. Smith also was an Emergency Room Staff Physician for 7 years before specializing in Nephrology (Kidney Function). His first book ER Confessional was a witty and poignant look at patients in the ER and his experiences during those years. His new release Call Nights is one doctor's journey through residency, fellowship, and private practice, along with a tribute to the Mentor that helped him become a better doctor and a better human being. He grew up in Dallas, TX, is the father of four children and enjoys hunting and fishing on his days off.
