It wasn't nominated for Best original Screenplay OSCAR but should have been and should have won. But naysayers said it had "no dialog," just main character (played by Tom Hanks awesomely) reacting--often non-verbally-- to his unique circumstances. Great film. Great screenplay, directed superbly!1 of 1 people found the following review helpful. Five StarsBy Gerard O. HemmerleEnjoyable and inspirational!0 of 0 people found the following review helpful. So begins William Broyles, Jr.'s fascinating introduction, written exclusively for this book, about the process and

challenges inherent in writing a screenplay that was not, by design, going to have a lot of dialogue in it, and about his collaboration with two extraordinarily gifted artists, actor Tom Hanks and director Robert Zemeckis. Broyles's introduction shows how a movie and its story evolve, shift, and shape while the creators grapple with all manner of internal and external choices: from developing what was Tom Hanks's idea into a story, and building a narrative structure and thematic threads into a screenplay, to researching the details of the specific and ironic situation of a FedEx executive stranded on a desert island. Also included in this unique Newmarket Shooting Script edition is the complete shooting script, a preface to the script by Academy Award-winning filmmaker Robert Zemeckis (*Forrest Gump*, *Contact*), movie stills, and complete cast and crew credits.
