**From Intellect Ltd : Cinema and Landscape** before purchasing it in order to gage whether or not it would be worth my time, and all praised Cinema and Landscape:

0 of 1 people found the following review helpful. Good .By Maria-Dolores Garcia-Borron This is a good book too . But maybe it is also not so complete , I feel so much is missing ; very little about the cinema of other cultures, and as for the western films (Europe, America, Australia...), be they mainstream or avant-garde, it does not speak much on the film techniques to convey the different feelings , either .
