# CloudDancer's ALASKAN CHRONICLES

At times the price paid for the joys and freedoms of gallivanting about the arctic skies was far too steep. Some paid with their lives. And some were my friends.

**CloudDancer : CloudDancer's Alaskan Chronicles, Vol. 3: The Tragedies** before purchasing it in order to gauge whether or not it would be worth my time, and all praised CloudDancer's Alaskan Chronicles, Vol. 3: The Tragedies:

0 of 0 people found the following review helpful. Life Lessons for Aspiring Arctic Flyers and Armchair Bush Pilots as Well By robert guhr An honest and hard look at the dangers of Arctic flying. This must have been a very difficult volume for the Author to write, all the Tragedies were close to his heart. Thank You Cloud Dancer for reminding us that flying, although the second most fun thing known to mankind, can be a harsh mistress. I am sorry for your losses. 2 of 2 people found the following review helpful. Arctic Heartbreak By Forrest D. Fasig For several reasons I

have been avoiding Cloud Dancer's book on the aviation accidents up in the Kotz/Nome area. Just too close to home and heart. And too close to my own set of experiences with the same wonderful people and airplanes. Way more times than I care to count, I sat there in my airplane listening to a drama unfold on the radio knowing that when the transmissions stopped, a friend would be dead. Helpless feeling then, and helpless feeling now when I wake up from dreaming about it. Until now. I finally sat down and read through the book nonstop... Anyway... A plug for a fascinating book, and I challenge anyone to read it with dry eyes and no goosebumps. Gump2 of 2 people found the following review helpful. Cloud dancer tales By desert flyer The book arrived in new condition and was an enjoyable read for any person with an aviation background.

Alaskan Chronicles fans need look no further than the front cover, to know this book is a dramatic change from CloudDancer's first two humorous literary efforts. The new cover reflects the somber theme of the stories within. So what's happened? Did Cloudy run out of funny stories? No. CloudDancer still loves a good laugh or great flying story. When combined, all is right with the world. (Adding a gorgeous dame and a Bacardi and Coke helps too.) Another volume of Arctic flying funnies someday is a given. But, a while back, desperate to find an inner peace, and extinguish smoldering embers of anger that had glowed within for decades, CloudDancer wrote "Chains and Padlocks." It recounts the loss of two people he loved deeply. Internet response was overwhelmingly positive. And CloudDancer felt the exercise had helped to keep the inner demons at bay. Thus the genesis of this book; a collection of drama-filled tragedies. The little humor within is mostly ironic. All are written from the perspective of his direct involvement, as either a participant, or an observer of the drama. Seems Arctic flying, while mostly fun, is not always funny. All too often, people get killed doing it. Sometimes they're your friends.
