Mel Elliott : Colour Me Good Harry Styles before purchasing it in order to gage whether or not it would be worth my time, and all praised Colour Me Good Harry Styles:

1 of 1 people found the following review helpful. cute idea, little blah for childrenBy JustbeachyGood novelty idea, but not very many pages or very detailed coloring pages. The picture on the front looks about what the pictures on the inside look like and most are similar to each other. I bought it for a young tween that likes Harry Styles. She liked the idea, but when it came down to it, it entertained her probably 10 minutes tops...she flipped through it, colored in some of the hair and realized there was nothing else interesting to color and was done with it. All in all: cute idea--just don't expect it to entertain your young children.0 of 0 people found the following review helpful. Not a Coloring Book!By HopeThis is not exactly a coloring book. It is more like a drawing book. I got it for my grandson because he loves Harry Styles, but it was a bust a total waste of money. False advertising!!0 of 0 people found the following review helpful. Great Idea!By Bethany VandiverThis was the cutest thing ever!!!

Harry Styles is the lead singer from One Direction, propelled into super-stardom by their storming of X-Fcator, and since then his weird huge gravity-defying hair and cute grin have quickly cemented him as a national treasure.
