Tiny book of wisdomBy MarcNEveryone should read and revisit this tiny book on regular basis. Filled with wisdom. I recommend reading one lesson and living with it for a bit before getting to the next one.0 of 0 people found the following review helpful. The greatest book everBy Maurice AdamsThis book is amazing, the laws are very easy to apply and makes lots of sense. The real life

applications are incredible and apply to all walks of life. The stories they help to explain the laws and are also a must read and are very important to understanding what is being said. My book had some issues since part of it the stories for the laws were missing, those were very important to me and I decided to buy kindle version and got the laws and not the stories to reinforce them. So I will buy another so do please read the stories as well as they enhance the application of the laws.

The perfect gift book for the power hungry (and who doesn't want power?) at an excellent price. This is the concise edition of an international bestseller. At work, in relationships, on the street or on the 6 o'clock news: the 48 Laws apply everywhere. For anyone with an interest in conquest, self-defense, wealth, power or
