I took them to the office and they were an instant hit!0 of 0 people found the following review helpful. Great Corporate Flashcards ....By Brian ThomasThese cards are professionally done and have funny real corporate sayings like "shoot the puppy" "bandwidth" and "open the kimono." Any time I hear someone use one I break them out and let them know they just pulled a text book corporate lingo move. They are also fun for when times get stressful and you just need to loosen up the team.0 of 0 people found the following review helpful. Hilarious flashcardsBy Cbburch57Definitely not a kid's toy. These flashcards are hilarious. A friend at work had these and I searched for them because I had to have my own. had the best deal! Love them.

The corporate world has a language all its own, and mastering boardroom lingo can be a daunting task. If you or someone you know has a job, its likely youre perplexed by concepts such as low-hanging fruit, golden handcuffs, and sacred cows. With the humor and classic educational techniques of our Corporate Flashcards, youll learn to speak suit in no time! Includes 50 cards, each 3.75 x 5 inches and an accordion-fold game insert. A perfect gift for anybody

who's employed or underemployed.
