Peter Lord, Brian Sibley : Creating 3-D Animation: The Aardman Book of Filmmaking before purchasing it in order to gage whether or not it would be worth my time, and all praised Creating 3-D Animation: The Aardman Book of Filmmaking:

2 of 2 people found the following review helpful. Good book that paints broad strokesBy Kindle CustomerThis book has been an excellent resource for reading about big production projects. There is some information in this book on how they make their armatures (skeletons) and build gromit which is was great to see and gain an understanding of this process. The book is focused on the aardman way which is not the only way but it gives a big vision for any animator to work towards.0 of 0 people found the following review helpful. Built with first quality paper and hard cover...By Gary GarcaI've just received the book, so I didn't read it yet; but I was taking a look at it and all I may say is that it was built with first quality paper and hard cover...I will be able to write about its content when I've finished reading the book...0 of 0 people found the following review helpful. awesome resourceBy john WYou might expect Ardman would hold back some of the keys to the temple, but this is really a great resource for anyone interested in the step by step process of claymation/stop motion animation. Fantastic book.

A new edition of the guide to stop-action animation, published to include coverage of new innovations since the creation of Chicken Run, discusses achievements that have taken place since the book's original publication in 1998

and surveys the latest computer technologies. 15,000 first printing.

About the Author Peter Lord, in 1976, with David Sproxton, founded Aardman Animations, an award-winning studio that has produced many short films, series, commercials, and music videos.
