Matthew Barney : Cremaster 1 before purchasing it in order to gage whether or not it would be worth my time, and all praised Cremaster 1:

2 of 5 people found the following review helpful. cremaster 1By N. YulmanThis impressive volume features images from Matthew Barney's 1995 video work Cremaster 1. In this installment of the five part Cremaster series Barney turns a Boise, Idaho football stadium, with gorgeous blue astro-turf, into a surreal performance space featuring elaborately choreographed Chorus girls and a pair of Good Year blimps. These lush video stills seem taken from a dream. They at once seem impossibly foreign and oddly familiar. They are presented in an attractively bound book which is sure to be one of the essential documents of 1990s art.
