David Cronenberg : Cronenberg on Cronenberg (Directors on Directors) before purchasing it in order to gage whether or not it would be worth my time, and all praised Cronenberg on Cronenberg (Directors on Directors):

0 of 0 people found the following review helpful. Couldnt stop reading.By chuddyIf you are into cronenberg it is absolutely fascinating. I wish there was a newer edition. This one only goes through crash. But all the body horror is there. And cronenberg's wit and intelligence are there too.0 of 0 people found the following review helpful. A

Fascinating Firsthand Look at David CronenbergBy JPDavid Cronenberg is a fascinating individual. He is extremely well spoken and articulate. The interviews collected in this book are top notch and give incite to all of Cronenberg's films but depending on which edition you pick up will indicate what films the book covers. I picked up an early edition that covers up through "Naked Lunch" but I loved the book enough that I have no problem hunting down a more recent edition.It was cool to learn how involved Cronenberg was with everything in his films; I never knew how large of a role he had in the writing of all his films. You also get to hear first hand the artistic integrity to his work and trials he had to endure and overcome to simply get most of his films made from flaky producers to relentless journalists and censors.My only complaint about the book is a silly one but I wish he could have gone into more depth on everything! It was too cool to hear about each movie and I became sad every time a chapter would end. It seemed like there could be a book written on every film Cronenberg has made (and I would read everyone one of them). The photos are cool and seeing a young Ivan Reitman (who played a key role in Cronenberg's career) was a real treat. Bottom line is that this is a wonderful book for fans or anyone interested in David Cronenberg. A great investment and I cannot recommend it enough. I'm looking forward to purchasing other volumes of the `Director on Director Series' and more books on Mr. Cronenberg.0 of 0 people found the following review helpful. Five StarsBy Kevin Jensengood stuff

Cronenberg on Cronenberg charts Cronenberg's development from maker of inexpensive 'exploitation' cinema to internationally renowned director of million-dollar movies, and reveals the concerns and obsessions which continue to dominate his increasingly rich and complex work. This edition brings Cronenberg's work up -to -date with an additional chapter on Crash.

About the AuthorWith films such as The Brood and Videodrome, David Cronenberg established himself as Canada's most provocative director. With subsequent movies such as The Dead Zone, The Fly, Dead Ringers and Naked Lunch, Cronenberg demonstrated his ability not only to touch painful nerves, but also to invest his own developing genre with seriousness, philosophical dimension and a rare emotional intensity.
