CustomerThis will be a great book as soon as I have progressed enough learning to play classical guitar. I've played these Inventions on piano, and love them. I am looking forward to being able to use these guitar transcriptions as soon as possible.1 of 1 people found the following review helpful. 15 Two -Part inventions of J.S. Bach for guitarBy david ellisThe book was in new condition. The arrangements for guitar are effectual as guitar works and reflect the original compositions closely.

All 15 of Bach's Two-Part Inventions have been transcribed for solo guitar! Providing a wealth of technical and musical challenges, these transcriptions are perfect for improving sight-reading skills and can be ideal new additions to the performance repertoire of any serious musician.
