Johann Sebastian Bach : J.S. Bach / Inventionen before purchasing it in order to gage whether or not it would be worth my time, and all praised J.S. Bach / Inventionen:

It's a little distracting when I'm trying to learn an Invention and have to learn the notes.2 of 3 people found the following review helpful. Look carefully at the fingering in the Look Inside pages before buyingBy ChrisThis edition has some very ideosyncratic fingerings, such as trills played with fingers 1 and 3, 3 and 5, or 2 and 4. I find this very uncomfortable and unnatural. I wanted to give this fewer stars, but since I am not a serious keyboard student I don't feel I have the authority to say the fingering is wrong--perhaps there is some stylistic justification for these choices. Just look at the excerpts before you buy.

An urtext edition. Includes an explanation of embellishments and fingerings by Marcello Abbado.
