From Alfred : J.S.Bach - Inventions and Sinfonias: Two- and Three-Part Inventions (Alfred Masterwork Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised J.S.Bach - Inventions and Sinfonias: Two- and Three-Part Inventions (Alfred Masterwork Edition):

0 of 0 people found the following review helpful. Five StarsBy Fi.Nice.5 of 5 people found the following review helpful. Hard to read fingering (poor resolution/quality)By M. AraghchiniI was looking for something that shows the

correct fingering of the two part inventions and bought the kindle version of the Alfred Masterwork Edition. Although the Alfred Masterwork Edition shows fingering, but unfortunately the resolution of the kindle version is so poor that even when I am using my mac and zoom on the fingering notes, I cannot read them and it is hard to see the right fingering numbers. When I found a high resolution free pdf sheet on the internet (which included fingering as well) I was sure I wouldn't use the kindle version anymore. I hope they will fix this issue. 0 of 0 people found the following review helpful. Five Stars By frog97 Thank you

Students, teachers and professional pianists will find this volume invaluable. This historically accurate edition contains a wealth of background information on ornamentation, dotted rhythms in the Baroque style, and the recommended tempos and guidelines for performing the works on the piano. Bach's writing is carefully separated from the editorial suggestions in light gray print. A wealth of footnotes compare the various sources consulted. 116 pages.
