Standard treble clef music. May have met no tablature which isn't really mandolin music. Also, on recording each piece played 2 times. Once with mandolin plus other instruments and once without mandolin and only backup instruments such as an organ etc. I thought this particularly helpful in that

you could hear it played with mandolin and then you can provide the mandolin track. Kinda like a karaoke recorder for mandolin rather than voice. He is correct that there is no solo mandolin playing on recorder. These pieces were arranged to be played along with other unstruments.0 of 1 people found the following review helpful. Sub OKBy CustomerIt's Bach's works but it's not mandolin-ish! Rehash of his playable stuff!5 of 5 people found the following review helpful. Popular Works of J.S. BachBy Michael DubhagainThis is a great J.S. Bach book for the mandolin. It's written in the standard mandolin tuning of GDAE. If you're playing standard mandolin or octave mandolin you're probably already in GDAE tuning. If you're playing Irish bouzouki you're probably in GDAD and may want to tune the high D course up to E. It's a little easier to play melody (or lead) in GDAE, and it's a little easier to play chords in GDAD. Another reviewer said something about this not being mandolin music or a mandolin CD. You can look inside and see that this is indeed mandolin music and that the tabs are correct for GDAE. The CD is excellent and it's definitely a recording of a standard mandolin, although I personally think it would sound better using an octave mandolin (which is an octave lower than standard mandolin).

The Mandolin Play-Along Series will help you play your favorite songs quickly and easily. Just follow the written music, listen to the CD to hear how the mandolin should sound, and then play along using the separate backing tracks. Standard notation and tablature are both included in the book. The CD is playable on any CD player, and is also enhanced so Mac and PC users can adjust the recording to any tempo without changing the pitch! Songs include: Bourree in E Minor * Invention No. 1 * Invention No. 2 * Jesu, Joy of Man's Desiring * March in D Major * Minuet in G * Musette in D Major * Sleepers, Awake (Wachet Auf).
