0 of 0 people found the following review helpful. Valuable edition of inventions By Mary Wiser Typeset is easy to read. The editing is reasonable for fingerings, and the cd is a very useful companion to this book. 1 of 1 people found the following review helpful. Bach 2 Part Inventions By Carol Domasco This is a very nice edition. The historical content and the explanations of the ornaments are very clear. My students and I like it. Thank you, Carol Domasco 0 of 0 people found the following review helpful. A nice set of inventions By Customer Nice scores with interesting

ornamentation. This met my expectations.

(Schirmer Performance Editions). Schirmer Performance Editions are designed for piano students and their teachers as well as for professional pianists. Pedagogical in nature, these editions offer insightful interpretive suggestions, permanent fingering, and historical and stylistic commentary. Prepared by renowned artists/teachers, these publications provide an accurate, well-informed score resource for pianists. J.S. Bach (1685-1750) composed the Two-Part Inventions for his son Wilhelm Friedemann. While giving the player a superb example of musical construction, they also teach the basics of articulation, rhythm, phrasing, fingering, ornamentation, and the development of a singing tone. These short masterpieces are essential repertoire for every pianist. Book includes access to online professional recordings of each piece. Editor recording artist: Christopher Taylor
