Jack Johnson : Jack Johnson - Strum Sing before purchasing it in order to gage whether or not it would be worth my time, and all praised Jack Johnson - Strum Sing:

It has all the chords and words to the songs as well as a legend at the top for any chords you aren't familiar with. I'd say about 80% of the songs here can be played by a beginner which makes it a lot of fun; if you're good at bar chords you can play 100% of the songs. It features about 43 songs total. Remember this songbook is setup for chords, not specific strings for picking. I highly recommend this songbook if you're a Jack Johnson fan. 9 of 9 people found the following review helpful. very rad indeed By Kyle

Thomas have played this product cover to cover several times and enjoy it immensely. a word to those who may have perused their local music/book store, come across this book, and felt offended by it's simplicity: i dont believe the target market for this book was the "underappreciated-guitar-greats", but people who would simply like to "strum and sing" the music. i have a great time showing this book to friends who dont know how to read music. i like this book so much that i am currently looking for similarly simple titles to purchase and/or refer my friends to. 1 of 2 people found the following review helpful. Just OK for what it is...By Hound DogI had high hopes for this when I bought it for my 13 yr old daughter. I am a little disappointed, but she is not. This book provides just basic chords (with tablature) for a lot of JJ's best songs. The upside is the chord progressions provided are as simplistic as possible, definitely geared toward the beginner. It provides the novice with a means to play along, as well as the lyrics. The downside is that the chords are not very accurate, and the book does not address the strumming patterns at all. If you have been playing guitar for a year or more, you would be better off with the "Play it Like it is" series of JJ transcription books published by Cherry Lane.

(Easy Guitar). Strum along with 43 songs from Jack Johnson with this collection of chords and lyrics. Includes: Better Together * Do You Remember * Flake * Fortunate Fool * Holes to Heaven * It's All Understood * Taylor * Tomorrow Morning * and more.
