Frank Tirro : Jazz: A History (Second Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Jazz: A History (Second Edition):

0 of 0 people found the following review helpful. I had owned the book previously but loaned it to ...By Gavin FranklinI had owned the book previously but loaned it to a student who did not return it. I bought this one to replace the one that was lost. This is a very important book for students of music. It was a little more expensive than I had hoped for, but needed the book so incurred the expense.0 of 0 people found the following review helpful. Four StarsBy C. HallmarkUsed this book for a online class0 of 0 people found the following review helpful. Tirro's Jazz: A HistoryBy ryantrpt75An outstanding, brief overview of jazz. Does not go into deep detail but would be a wonderful

text for a jazz appreciation class!!

Jazz is a democratic music in the best sense of the word, for it is the collective achievement of a people. This book is not a recounting of anecdotes nor a simple chronology of musical events, but a history. It evaluates the gathered evidence and draws conclusions. Its narrative and summaries are based on repeated careful listenings to thousands of recordings, on the reports of musicians who witnessed and experienced many of the crucial events and created some of the masterworks, and on the fresh research and insightful thought of hundreds of serious scholars who love and respect this music.

From the Back Cover This book is intended to serve as a guide to the music and as an interpretation of the historical interaction that has taken place among jazz musicians, the music, and society. It is a survey of the historical development of this music from its African precursors to its current living exponents.
