Norman David : Jazz Arranging before purchasing it in order to gage whether or not it would be worth my time, and all praised Jazz Arranging:

1 of 1 people found the following review helpful. Great book for instrumentationBy Greg MichaelsI am the proud owner for around a dozen arranging textbooks. Though this isn't my first choice, it is a nice little book, and makes for a good reference guide. I particularly like the instrumentation section of the book.0 of 0 people found the following review helpful. This is a great jazz arranging bookBy Felipe Eduardo Avalos CervantesThis is a great jazz arranging book. The information is clear and is a great support for any musician. It's a great book!0 of 0 people found the following review helpful. Comprehensive, Complete, and Wonderful!By Nicholas MariniI find that this book is

excellent all around. I wish I came across it earlier in my studies/career. Great resource!

This book examines arranging methods and their applications. It is designed to be used in a jazz studies program and as a professional reference manual for musicians. The text begins with a historical overview of jazz band instruments and a study of their characteristics. The body of the text includes an examination of relevant terminology, notational devices, principles of theory, and arranging techniques.

About the Author Norman David is Assistant Professor of Music at The University of the Arts in Philadelphia and Adjunct Assistant Professor of Music at Franklin Marshall College.
