1 of 1 people found the following review helpful. DecentBy TorgnyIt is very informative for a guide, and reveals most of the secrets and strategies to complete the levels. The plus are that it contains unseen concept art as well as interviews with the production crew. The downside is that it is in black and white and could use more variety in images. I recommend it for any fan of the Jedi Knight: Dark Forces II computer game.0 of 0 people found the following review helpful. Very good overallBy mortonm@ttc.comThis book is written very well and covers all aspects of what gamers are looking for. It gives plenty of maps for reference, and is excellent to user for either getting past a rough bit or finding all secrets. It begins with statistics for all the enemies and general stats for weapons, etc. Then ofcourse are maps and write-ups for all the levels; including help and secrets. Since it was written with the help of the creators, everything you'd want to know is included and seems accurate. A great buy for help or just good 'ol cheating.6 of 6 people found the following review helpful. It rocksBy A CustomerThe book has maps of all levels, it
