The puzzle diagrams are extremely faint; I had to go over them in pencil so I could put indicator dots in the blank squares. The puzzles have no indication of their difficulty. I have successfully been doing jigsaw Sudoku for years and love them. However, I attempted to solve the first four puzzles in this book and found them all impossible for me to complete and gave up on them all, turning to other puzzle sources..In short, for me, the book was a waste of time and money.0 of 0 people found the following review helpful. and love the Jigsaw typesBy sue in WAThese books have one thing in common...the pattern on the puzzle. I've been working Sudoku for years, and love the Jigsaw types, but these were nuts! Don't waste your money.1 of 1 people found the following review helpful. the back and cheat. And believe me: I'm intelligent and know how to work these puzzles so its not just me.
