DJ Ape : Jigsaw Sudoku Compendium: Very twisted puzzles before purchasing it in order to gage whether or not it would be worth my time, and all praised Jigsaw Sudoku Compendium: Very twisted puzzles:

3 of 3 people found the following review helpful. Unique in challenge, quality and the human touchBy intal never go through a puzzle book from number one to the end. I flitter backwards and forwards depending on my mood. Even better with this compendium. I love Djape's compendiums! Or is that compendia? (See non-consecutive, Killer, From Florence with Love...)Jigsaw is tricky, but add in a variant such as outside, tridoku, non-consecutive and 10x10 and no-one will be claiming boredom!As with all his other books, Djape includes a well written tips and strategies section,

great quality paper and excellent presentation. There is no guessing in any of his puzzles - it's all logic. That can't be said for many of the mass-produced other-"authored" titles (Maybe "my computer" should be named as the real author of these ones). And, after buying just about every one of his books so far, I am yet to discover an error. 1 of 1 people found the following review helpful. Great puzzles By Beemer76I could do these forever. They are very challenging but so much fun! It must surely be keeping my brain sharp. 1 of 1 people found the following review helpful. Interesting! By Puzzler This puzzle book was as advertised and I appreciated having a list of the content before purchase. The Puzzles are on crisp white paper. I would like it more if the diagonals in the diagonal jigsaws were shaded as I have seen in other books, but in sum, I am glad I bought it.

This book contains 160 brand NEW, previously UNPUBLISHED Jigsaw Sudoku puzzles. Half of them are classic Jigsaw Sudoku puzzles, but the other half are variants of Jigsaw Sudoku. All in all, you get: 5 puzzles 6x6 in size (just to warm your fingers) 5 puzzles 8x8 in size (slightly more difficult) 80 classic Jigsaw Sudoku puzzles (9x9) 5 puzzles 10x10 in size (remember to use the zero!) 10 Diagonal Jigsaw Sudoku (no repeats on the diagonals) 10 Jigsaw Combo (both classic Sudoku and Jigsaw) 10 Jigsaw Windoku (4 additional square nonets) 10 Jigsaw TriDoku - these are extra special and you should first get a hang of classic TriDoku. 10 Outside Jigsaw - the clues have been thrown outside the puzzle! 5 Non-Consecutive Jigsaw - two numbers that are touching may not be consecutive 5 Double Jigsaw Sudoku - 2 heavily overlapping puzzles 5 Jigsaw TwoDoku - 2 slightly overlapping puzzles Jigsaw (or irregularly shaped) Sudoku puzzles share the same rules with classic Sudoku. The only difference is that the nine nonets are, well, irregularly shaped. This makes the puzzles slightly harder than the original Sudoku and surely more entertaining, because every puzzle has a unique nonet design and therefore, they can never become boring.
