US release songlist By WDGood! this is for the US release (other release is UK and has different songs) this contains the 2nd version of "Red House" in case you were looking for it. I prefer this version as it was the 1st one I heard (I was looking for this one, Hal Leonard published for both releases).

This book is guitar notes, TAB and an audio CD to play along with. I can't review the CD as I haven't used it yet, but the 'play-along-with' title suggests karaoke-type accompaniment. 0 of 0 people found the following review helpful. Five Stars By ENKI Great accurate 0 of 0 people found the following review helpful. Awesome edition By John C. Harmon Jr. The book is a great source for students wanting to learn the essential elements of Hendrix. The guitar parts are accurate and the scores are not overly complicated. Much more user friendly to the aspiring Hendrix Aficionado than the Transcribed Scores versions, which would make a great next step. The CD is definitely a bonus and sounds awesome.
