By Patrick Andrews It isn't exactly what I expected but it is still pretty good! I was hoping for more of a sheet music book in which it shows all the music Billy actually plays WHILE he is singing not notes to cover for the singing but you can still learn how to play the music from this book alone! 0 of 0 people found the following review helpful. A Must for the Piano Playing Fans of Billy Joel. By E. Bringslid This songbook is a must for every die hard Billy fan who wants to play his music. In most cases the transcriptions are very close to the record,

although there are some notable exceptions. This goes for every song book really, let your ears be the final judge. There is also a Volume II of this that will complete the set. 0 of 0 people found the following review helpful. good music and good for piano playing By Norelle This was a good buy and the book is nice and shiny and new looking, the only downside is that there was no marking "DO NOT BEND" or any cardboard to keep it flat and our mailman FOLDED it and put it in the mailbox, so the backcover of a brandnew book has a crease! Also I ordered Vol 2 at the same time and was a little disappointed at how many of the songs are in both volumes, that seems like a waste to pay for the same songs twice.

(Easy Piano Personality). 21 of Joel's best, arranged for easy piano, including the songs: Baby Grand * Just the Way You Are * Piano Man * Leave a Tender Moment Alone * 16 more.
