The one thing he insists upon is that the player goes to a casino not to play a game, but to WIN. His humor and step-by-step chapters explain HOW to Win. His gambling

philosophy (his Big 4 and Little 3) give you all the tools to walk out of the casino as a winner, and on those days the house beats you, you don't get whacked for your entire bankroll. His books and videos are worth absorbing. His book on Advanced Craps is perhaps the best gambling How To book I have ever read. I highly recommend his books. 0 of 0 people found the following review helpful. Five Stars By Philip Streibich Great information. 2 of 2 people found the following review helpful. You want to play craps? Buy this book. By LDF Good book with many good insights and "rules". Will not waste time discussing ones that interested me or that I disagreed with. Suffice it to say that Mr. Patrick is a conservative and cautious gambler who encourages all of us to approach casino gambling (all games) with perfect knowledge of the game we are about to play and with discipline. Not a bad idea at all.
