Great book, I am learning to play so this ...By Dorothy J Boucher Great book, I am learning to play so this book is helping me so far, but I don't know I am still missing something.. but price is good..@tisonlyme1430 of 0 people found the following review helpful. A fine book.By Cynthia Nicholas I'm using this in conjunction with another "beginners" book...it's a fine little book.0 of 0 people found the following review helpful. Great for Beginning Little Piano Players By The Williams Family This has been great for my 6 year old learning to play the piano. I have used this book in the past with other 6 year old children, and it worked great. I believe 6 years old is a good age for a child to start learning to play the piano.

(Willis). A comprehensive step-by-step course specifically designed to suit the needs of all children beginning the piano. Includes: characters and illustrations \* writing exercises \* sight reading drills \* review work \* accompaniments \* and more. Contains worksheets, reading-aloud exercises and accompaniments for teacher or parent.
