Franz Liszt : Jorge Bolet Memorial Editions, Vol 3: Consolations and Transcendental Etudes by Franz Liszt
before purchasing it in order to gage whether or not it would be worth my time, and all praised Jorge Bolet Memorial Editions, Vol 3: Consolations and Transcendental Etudes by Franz Liszt:

Volume III in this exclusive series contains six Consolations and twelve Transcendental Etudes of Franz Liszt. The serious performer and student will thrill at these 'performer's editions' of the masterworks, as edited by Dr. Teresa Escandon, who took markings directly from Bolet's personal performance copies. As with the previous volumes in this series, biographies of Bolet and his family are included, along with a description of the particular markings and stylistic approach Bolet used in his performing. Add this important book to your stock. A CPP/Belwin exclusive!
