She loves them because she says they help to keep her mind working now that she's in her late sixties. I'm glad I can buy a bunch of these at a time on since they aren't available where I live. For this particular order I received some excellent customer service. I noticed it was taking a little bit longer than usual for my items to ship so I contacted a customer service rep via chat. No questions asked, the rep immediately expedited my international shipping and I received this order a few days later. Just one of the many reasons I love !0 of 0 people found the following review helpful. 4 1/2 stars By DVD watcher These are a little different than the "regular" jumbles - these have too many clues (which I tried to ignore), so a

lot of the puzzles aren't very challenging. However, there are several levels of "difficulty" and some are real challengers. This book has 178 puzzles and is the size of a large coloring book with larger print. There are some "trivia" facts throughout the book as well. 0 of 0 people found the following review helpful. A more challenging book than regular jumbles and fun to do. By Robin I bought this for my husband and he always loves these. Sometimes there might be a mistake in a puzzle, but the answers are in the back, so they are fun to do. These are a nice diversion from the typical jumble book with more challenging puzzles that follow themes and change throughout the book. He actually likes these a bit more than the typical jumble book.

Increasing in difficulty through the book, this collection of word-scramble challenges adds fun to cognitive exercise and has the added element of a larger puzzle to be solved on each page, testing the reader's knowledge of such topics as history, geography, and science. For more than 40 years, millions of newspaper readers have delighted in solving Jumble, which appears in hundreds of national papers and in these puzzle books that offer hours of challenging wordplay and fun. Each page features a series of mixed-up words coupled with clues, and one letter from each word is used to form the answer to the puzzle.
