The "punchlines" don't always make sense, which is not a huge deal to us but the lettering is strange. It is some kind of font that makes it hard to see all the letters you are working with from time to time. Like I said, we have worked through dozens of these books and never had one like this. I wish there would have been a way to see inside it before ordering it because I wouldn't have had I seen the type of font they were using. If that was available, I must have missed it. Not our favorite book by far.2 of 2 people found the following review helpful. Buy these for my mom. She loves them and ...By Diana M SchollBuy these for my mom. The puzzles put together by Jumble are nicely done. The books are of a high quality but maybe don't need to be so that they could be cheaper.

With eclectic subjects that include family, shopping, entertainment, food, and work, these 180 witty word scramble puzzles appeal to any audience. For more than 40 years, millions of newspaper readers have delighted in solving Jumble, which appears in hundreds of national papers and in these puzzle books that offer hours of challenging wordplay and fun. Each page features a series of mixed-up words coupled with a cartoon clue, and one letter from each word is used to form the answer to the puzzle.
