The print is large enough for my husbands bad eye sight, but it could be a little larger.. And it is hard enough that he has to really look for the words. He has been buying those cheep ones and hes done in about half hour. This book he didn't do as fast and he really loved it. One of the things he looks for in his books is the words and the puzzles are on the same page.0 of 0 people found the following review helpful. Great puzzle for you or a gift!By Jeffrey TuscanThis book is very clean and nicely printed. The reason I gave it a 4 is because I was expecting the print to be larger than what It was. It has the capability to probably fill out more of the page, which isn't too big of a deal. The puzzles are fun and they get progressively harder as you go, which is nice. I truly recommend this puzzle!0 of 0 people found the following review helpful. GREAT time wasterBy #TheHerringtenslarge print, Progressively harder puzzles, GREAT time waster!
