I am only on the 3rd puzzle on this book and they take me days to solve. I'm having difficulty with it - but I rated it high - because it lives up to its title! It's definitely for those who want a math/Sudoku challenge!! 0 of 0 people found the following review helpful. One Star By Phantom Melodytoo hard for me.

This is a book of killer sudoku puzzles, also known as sudoku sums. Difficulties range from easy to medium. Be warned, these puzzles are slightly EASIER than in other Killer Sudoku books I have published. All puzzles can be solved without guessing and have one solution only. Remember: do not guess! The numbers are printed in large font,

very easy to read. All puzzles are NEW, previously unpublished. Enjoy! :)
