Steve Honeywell : King's Field: The Ancient City (Prima's Official Strategy Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised King's Field: The Ancient City (Prima's Official Strategy Guide):

0 of 0 people found the following review helpful. Game for my daughterBy JOE M LAWSONMy disabled daughter loves this game. She has played it several times, taking different approaches to it.1 of 1 people found the following review helpful. As ExpectedBy Kit LonewolfThe guide was delivered on time an it was in better condition then described by the seller, very impressed by that! My only complaint is that the guide relys on photos to help the player but the photos are Black and White and grainy and kinda dark, but thats a fault by Prima and not the seller.0 of 1 people found the following review helpful. King's Field Strategy GuideBy CroquinhoIn playing many video games that have puzzles, and lengthy objectives, it is sometimes frustrating to progress past places that are designed to challenge you. Most times, I can do this easily, but other times I have brain farts, and can be frustrated. That's where

things like this strategy guide comes in. A readily available help to get me back on track, and keep my enjoyment as good as possible. Prima has a good reputation with me, for having comprehensive in-depth and most importantly, easily understandable explanations along with important illustrations to get even the most challenged player to complete any and all tasks for many games. I try to complete the games on my own for as long as I can, but sometimes the game designers get to a point that the solution to the challenge will be so obscure it causes gamers to shelve the game. But Prima guides have a way of presenting everything in easily understandable and informative ways so as to get any player to a point of maximum satisfaction in completing even the hardest games. Knowing what to do is different from actually doing it, so even knowing what to do is not completely giving anything away. That's what makes these strategy guides a valuable addition to gaming libraries.

The IDOL Must Be Returned... Step-bystep walkthrough of every mysterious cavern and level
