**Mike Searle, Cory Van Grier : Kingdom Hearts HD 1.5 Remix: Prima Official Game Guide (Prima Official Game Guides)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Kingdom Hearts HD 1.5 Remix: Prima Official Game Guide (Prima Official Game Guides):

69 of 76 people found the following review helpful. Spoilers and Very Little New InformationBy T. SchwamleFor those that don't know, Kingdom Hearts 1.5 ReMIX was a compilation of Kingdom Hearts Final Mix, Re: Chain of Memories, and a movie version of 358/2 Days. Chain of Memories is exactly the same game as the PS2 port of the same name released in the US in 2008 in HD. Kingdom Hearts Final Mix is the original Kingdom Hearts (released for

PS2 in 2002) with a few extra enemies, revamped synthesis, an extra boss, and more weapons and accessories. The Final Mix version of the game was never released in the outside Japan until this compilation. Keep this in mind while looking through the rest of this review.--Kingdom Hearts Final Mix--As I mentioned above, the Final Mix version has some new features but is overall the same game from before. When buying this guide, I was expecting a fair amount of copying and pasting because of this. What I was hoping was that the writers would at least make an effort to update the existing text with the new information.What's Included/Updated- Boss strategy for the new secret boss, "The Unknown"- Synthesis recipe list- List of new special enemiesWhat's NOT Included- Synthesis ingredient list- Strategies for new special enemies- Gummi ship missions- Gummi blueprint listThere could be other items I could add to the lists, but I haven't yet dived into the Trinity list nor the Dalmatian list (both had minor changes in the Final Mix versions). I will update this review when I know for sure on these two items and others.One major issue for me is the lack of information on the new enemies. These new enemies aren't just normal hack-and-slash kills. Most of them require a strategy to kill or get their special item to drop. This guide not only doesn't have the strategy, in most cases it doesn't even mention which item they drop! The small list of the new enemies has "Special Item" listed for most of the enemies as their drop. Not very helpful!--Spoilers Abound--Just in case you haven't played through the rest of the series, I'll be careful with my wording here.Though not mentioned in game, the new secret boss in the Final Mix is referred to by his actual name in the guide. Very silly in my opinion as it can give away a little. This is a minor gripe though.If you haven't played Chain of Memories and bought this guide to help you through it, I highly recommend NOT reading the Characters section of the Chain of Memories guide. This section gives away major (in my opinion) plot points which should be left for the player to discover. One particular character's bio even gives away a minor Kingdom Hearts 2 plot point! Why the author(s) thought this was okay is beyond my comprehension.Even in the middle of the walkthroughs it's pretty lined out as to what happens in the game. Don't read ahead with this guide or risk being spoiled to the story ahead.--Conclusion--Obviously if you need a guide for this game you're going to want to get this, but know that it's not exactly complete. My guide came with a code for the eGuide on Prima's website so it's POSSIBLE that the eGuide will be updated with the desired information. I'm not sure if the code for the eGuide is available to everyone or just a Pre-Order type of bonus.Many people, myself included, mostly just collect strategy guides for the artwork contained within. This guide doesn't have an artwork section like some guides do, but it does have some artwork scattered throughout.If you're looking for a good STRATEGY guide for the new enemies and such, I recommend looking to other (free) websites such as GameFAQs.It's nice to have a bit of the new stuff in one place, but it sure would have been nice to have it all in there.With as many times as this guide's release date was pushed back (over a month) I would have thought these issues would have been noticed or fixed.--Rating--3 out of 5 for the fact that the strategy guide is a walkthrough for the two games, but it lost some stars due to the amount of missing information.Here's to the Kingdom Hearts 2.5 ReMIX guide being more useful.1 of 1 people found the following review helpful. Kingdom hearts!By Brianna S.When I saw this on gamestop I was so excited but it was so expensive. But when i found it on here I had to buy! It was much cheaper and it's been really helpful to me! Not to mention its all fancy and a hardcover with a ribbon bookmark :)0 of 0 people found the following review helpful. Why so much?By AshleyLike stated in previous reviews, a lot of the content in the guide is incorrect or listed wrongly. I bought this guide when it was still \$15.00 on here more than a year ago, and I'm wondering why it spiked so much in price. The only thing I can think of is that it's a collector's thing but other than that, I have no clue. It's a pretty looking guide, though.
