**Wolfgang Amadeus Mozart : Klaviersonaten [Piano Sonatas]. Band II. Urtext (Sheet music)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Klaviersonaten [Piano Sonatas]. Band II. Urtext (Sheet music):

When I moved to US I had to leave my piano and all my books. I'm so glad that I found this book again. It has some minor pencil marks on only one piece (as indicated by the seller), but other than that it is in perfect conditions.The fingering is so adequate, the notes spacing and distribution so perfect (not overcrowded with very little font when the piece gets complicated), that I really recommend anyone who wants to play relatively easy Mozart's sonates to buy this edition.
