They are both progressing through it nicely as it introduces new concepts in a well-designed sequence. In the beginning, the worksheet pages were a nice bonus and the students enjoyed testing their knowledge, but about halfway through, both students got tired of doing the same kind of pages all the time, so they stopped doing them. The songs are great though, with a good mix of songs everyone knows mixed in with some original Bastien compositions for extra practice on specific concepts.1 of 1 people found the following review helpful. I had to buy this for my piano class in ...By CustomerI had to buy this for my piano class in college. The product seems new but it does NOT come with the CD. My college bookstore ran out of new/used version of this with CD and I had thought this would come with the CD so I bought it. I should've checked first if it came with the CD, so it was my mistake. Do not expect it to come with a CD. Bought straight from .com LLC.0 of 0 people found the following review helpful. Five StarsBy Anissa RajalaEasy to read for beginners. Very good instruction.
