They keep me thinking and make the time go by so quickly. I use to work Kriss Kross puzzles a long time ago. My mother taught me how to do them when I was in junior high and I loved doing them. I am 64 now and I haven't seen these puzzles around anywhere in a long time so when I saw it on I ordered it last week and received it today. The book is very nicely done up and has 100 puzzles in it which will keep me going for a long time. My next quest is the All Number Kriss Kross. Now I know where to go when I can't find a puzzle book at a bookstore or magazine store. Thanks !0 of 0 people found the following review helpful. After reading reviews I was really hoping for a good middle ground with this book- not too hard By AFA After reading reviews I was really hoping for a good middle ground with this book- not too hard, not to easy . And I was excited to try this different style of crossword with my husband, on our long car trip. We were disappointed though. They are not challenging at all, and I couldn't do more than one without getting bored. My 7+10 year old kids did enjoy it some though. 0 of 0 people found the following review helpful. Too easy By Samwise I Love puzzles and especially KrissKross puzzles. However, all of these are very easy! I like a little challenge when doing puzzles, otherwise what is the point?
