Mark Phillips : Metallica - Riff by Riff - Guitar before purchasing it in order to gauge whether or not it would be worth my time, and all praised Metallica - Riff by Riff - Guitar:

0 of 0 people found the following review helpful. Great for keeping up motivation By John This book is awesome! It's great for a beginner like me to break up the monotony of teach yourself guitar books/DVDs by learning a few of my favorite Metallica riffs. Some are more difficult than others, but there's something in here for everyone. So far, everything I've learned has been dead on accurate and most importantly fun. There is also some early Metallica history and added commentary/explanations which are cool. Keep in mind that these are just the major riffs, not the entire songs. If you're a more advanced player, cherry lane also offers full album tab books that are great. For a beginner or intermediate player, this is perfect to have some fun and jam with. 1 of 1 people found the following review helpful.

Breaks it down well
By Gravy
This book breaks down the intricate, complicated arrangements of Metallica into manageable chunks that are a bit easier to get a handle on. Even so, it's not for novices or those who are just starting out on guitar. Get a good grasp of the basics before you try to tackle the monster that is Metallica!
0 of 0 people found the following review helpful. Love Metallica
By Tomie Nelson
This is a good collection, really intense both rhythm and lead... now if I can find someone to teach me how to play this, not just the guitar I only know basics, I'm not an Intermediate or Advanced guitarist yet.

(Guitar Educational). Every essential riff from every song written and recorded by Metallica from Ride the Lightning , Kill 'em All , Master of Puppets , ...And Justice for All , and Metallica . Includes notes and commentary for each plus tablature.
