**Bob Longe : Mind-Blowing Magic Tricks** before purchasing it in order to gage whether or not it would be worth my time, and all praised Mind-Blowing Magic Tricks:

Kids can make a little magic happen when they have this handy kit in hand. Just like the popular String Games and Tangram Puzzles, this attractive spiral-bound book has a plastic box up front filled with goodies. Inside, young magicians will find all the paraphernalia theyll need to wow an audience: a brightly colored handkerchief that can get longer and longer and longer, dice to use for some mental magic, and, of course, the classic deck of cards. The manual itself contains dozens of fabulous tricks, illustrated with color photographs that children can easily follow. Every illusion is designed for an up-closer rather than big theater performance, so youngsters can do them anywhere, anytime, without the audience ever figuring out how they work!
