By pinklady032 This was a must have because of the raw and informative information that should be known to everyone of all ages. My nephew along with one of his friends had the pleasure two years ago to learn and recite the "I have a Dream" speech. Steven, recited the speech in Georgia and his friend got to recite the speech here in South Carolina during Martin Luther King Day. I was glad that I was part of the reason, for them wanting to recite the speech, by giving them both educational material that they can both expand on later in life. Dr. King was a strong man that we are all still struggling for by putting forth in the action of cause. A Change is Going to Come to each and everyone of us as we prosper to move forward in Life. I want to thank Dr. King for paving the way.....0 of 0 people found the following review helpful. Dr. King speeches By Janice G. Scott The cd arrived in a fair amount of time and is in excellent condition. I didn't like the fact that there are just excerpts of speeches, but that is what is advertised. I ended up buying a different cd with the entire speeches. 0 of 0 people found the following review helpful. Great Speeches of Dr. Martin Luther King, Jr. By James G. Miller I was 14 years old when I attended the March on Washington. I stood about 50 feet from the podium as I heard his speech. He was an excellent orator. The tape captured him brilliantly so I have a special reason to cherish the tape. Hearing his voice speaking about the African Americans' struggle for freedom brings tears to my eyes as I think of how much more he could have contributed had he lived. I recommend the tape to anyone

interested in the struggle for freedom.
