Norm Wattenberger : Modern Blackjack Second Edition Volume I before purchasing it in order to gage whether or not it would be worth my time, and all praised Modern Blackjack Second Edition Volume I:

4 of 4 people found the following review helpful. great bookBy B. RyanFantastic beginners guide to blackjack.This book contains everything one needs to go from zero to sixty in a couple hundred pages.0 of 0 people found the following review helpful. Easy and interesting read!By Pat EversonVery insightful, and well written. Difficult to view the charts and tables on my Kindle though, that's why it had to lose a star. All in all, recommended for any advantage

blackjack player! 1 of 1 people found the following review helpful. EXCELLENT By Customer Fantastic book. Very dense (this book has information on just about everything under the sun on blackjack) but I think the best book on blackjack I have read. Both technically informative and practical. Highly recommended for anyone serious about the game.

Highly detailed information on casino Blackjack as played worldwide, including over 100 variations, modern basic strategy, modern card counting systems, casino heat, current casino conditions, strategy comparisons, scams and myths, casino compartment and stories from the road. See the preview at www.qfit.com/book. This is Volume I. Volume II is available with advanced strategies. Blackjack expert Don Schlesinger said "What Norm fails to tell you is that this monumental work is one of the most important, comprehensive, pieces of research ever done on the game of blackjack. . . ."
