He's my favorite composers and I've decided to work through many of these pieces, plus some sonatas and some Liszt transcriptions. That should keep me busy for awhile.I have and use the paperback version of this, but the fact that the book NEVER lies late was really starting to annoy me. I liked the edition, easy to read, seems accurate and has good directions for us poor amateur players, and I persevered.Then I found this :0). Looks

exactly the same but in comb! I'll scribble on the paperback version with my analysis! 0 of 0 people found the following review helpful.
