My son is addicted to the Monster Legends game and asked for a handbook of some kind of Christmas. I should have known this was too good to be true. Over half the book is devoted to explaining how to install the game onto various devices (android vs. iphone, etc.) IT is also incredibly spaced out. What is 30 something pages could easily be reduced to 2. The last few pages just explain things that the help menu on the game already says. It's no so

much handbook help as it is tips, which again, we can find within the game itself. It is marketed as a handbook to help play the game and get more points, but it's more a stupid book someone got published somehow and they are trying to make a quick buck over something you can get for free. HUGE DISAPPOINTMENT!!1 of 1 people found the following review helpful. Very disappointed in this guideBy Librarian LadyVery disappointed in this guide. In a 32-page booklet, the first 25 pages are the steps for getting the game on your device. The other 7 pages are a few screen shots and some sentences that are re-phrased from the game tutorial. There is no information to help anyone who has downloaded the game and gone through the initial tutorial. I am returning it to for a refund.0 of 0 people found the following review helpful. One StarBy CustomerWas not a guide I was wanting this is trash.
