**Alastair Chisholm : Monster Sudoku** before purchasing it in order to gage whether or not it would be worth my time, and all praised Monster Sudoku:

0 of 0 people found the following review helpful. flawe booksBy Jackie Johnsoni have purchased , used monster sudoku from this site before and the books were clean and all the puzzles had been erased clean ( not sure how that was done ) the two books i got this time, the first 25 puzzles had already been done, i was surprised about the condition , otherwise i enjoy the sudoku books1 of 1 people found the following review helpful. Best Sudoku EverBy Leesa PaceThis is the best sudoku book I've ever had. I have purchased this same book 7 times. It's a shame that

Chisholm hasn't out any others like this out. 0 of 0 people found the following review helpful. Monster Sudoku By Elizabeth F. I have a hard time finding more copies of this challenging sudoku book. It is well worth the time I put into working the puzzles. The squares are large enough to comfortably make notations. I have bought many of these books and still enjoy the puzzles. It's impossible to remember the solutions from one book to another so that makes it a buy for me when I finish one.

Sudoku has taken over the world. The simple 9X9 puzzle has spread everywhere to become the most unexpected and spectacular success, but if you're finding Sudoku a bit tame these days, then "Monster Sudoku" is the answer. "Monster Sudoku" contains the numbers 1-9 but also the letters A-F, creating a monster 15X15 square. The 201 puzzles in this book range from delicious, through pernicious, malicious and finally the eye-wateringly hard vicious Monster Sudoku. They are designed to perplex and frustrate you, to obsess you and, finally, to alienate you from your friends, family and pets. Good luck!

About the Author Alastair Chisholm is the author of the extremely successful Kakuro Challenge (Crombie Jardine Publishing) and he has brought all his knowledge and experience to this brilliant book for children. He lives in Edinburgh.
