From Alfred Music : Moonlight Sonata: Sheet (Simply Classics Solos) before purchasing it in order to gage whether or not it would be worth my time, and all praised Moonlight Sonata: Sheet (Simply Classics Solos):

I am not, so I did return. Also, this is just a brief theme, not the whole song or anywhere near the whole song.2 of 2 people found the following review helpful. Very niceBy BKBThis is only a short portion of the Moonlight Sonata--the portion that everyone is most familiar with. It's for a beginner piano player but it sounds quite lovely. I gave 4 stars instead of 5 because I wasn't expecting it to be quite so easy nor so short. But it's still enjoyable to play.0 of 0 people found the following review helpful. It's a 2-page flyer.By Robert A. StatonComplete waste. When people say this is the short version, they literally mean it is TWO

pages. I thought they meant it's only the 40 page version instead of the 300 page version or something. A lot of classical music has other movements that you never hear. This one has an entire song that you can't hear.

Simplified Masterwork Solo.
