Martin Hoffman : More Tales of Hoffman before purchasing it in order to gage whether or not it would be worth my time, and all praised More Tales of Hoffman:

2 of 2 people found the following review helpful. good, but not great like his other book on Pairs PlayBy LenaI bought this book because its the sequel to "Hoffman on Pairs Play" which I found to be outstanding. In that book there were many good hands where you had to figure out how to play from some clues, or use good technique. Each hand gave 2 good summary points.This book follows the same format - 60 hands with 2 summary points. I just found the hands not to be as good. They weren't bad, just not as good. Some were more advanced (which doesn't mean they are bad) and others more far fetched.The book is worth reading, its just not a classic like the first one. I think I was a little disappointed because I felt let down that this wasn't as good as "Hoffman on Pairs Play"Good book, not great

Book by Hoffman, Martin
